## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a shadow mask, classified in class 313, subclass 407.
- II. Claims 9-15, drawn to method of making a shadow mask, classified in class 219, subclass 92.
- III. Claims 16 and 17, drawn to apparatus for making a shadow mask, classified in class 219, subclass 86.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case a mask can be made without a concave portion.

Inventions Group II and Group III are related as process of making and apparatus for making. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially

Art Unit: 2882

different product or (2) that the apparatus as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the skirt portion could be clamped other than by using a welding head.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Ed Garlich on 19 December 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
